Peak Time Services

The London Underground is extremely busy during rush hour, which occurs between 06:30 and 09:30 in the morning and between 16:00 and 19:00 in the evening. Train frequency reaches its peak, and passengers often need to squeeze in for a swift journey.

The Victoria Line, with 36 trains per hour (equivalent to one train every 100 seconds), boasts the highest frequency of trains on the entire network, making it one of the most frequent transit lines in the world. During morning peak times, some additional inbound Elizabeth Line services terminate at Liverpool Street and Paddington Mainline stations instead of continuing through central London. During evening peak times, some additional outbound Elizabeth Line services originate from Liverpool Street and Paddington Mainline stations.

Similarly, some additional Central Line peak services from Hainault travel via Woodford during morning peak times, and to Hainault via Woodford during evening peak times.

Check for updates: tfl.gov.uk/plan-a-journey

Peak Time Fares

Fares vary according to the service used, the time of travel, and the zones travelled through. Peak fares apply Monday to Friday (excluding public holidays) between 06:30 and 09:30, as well as between 16:00 and 19:00. However, this does not apply if you travel from a station outside Zone 1 to a station within Zone 1 during the 16:00 to 19:00 period.

For the London Overground route between Euston (National Rail station) and Watford Junction, peak fares apply Monday to Friday (excluding public holidays) in the following manner: inbound (from Watford Junction to Euston) between 06:30 and 09:30, and outbound (from Euston to Watford Junction) between 16:00 and 19:00.

The three-month trial period for off-peak fares on entire Fridays concluded on 31 May 2024.

Tube and Elizabeth line journeys to and from Heathrow Airport incur peak fares at all times if they start, end, or pass through Zone 1.
